Brookfield, WI 53005

Dear Caroline:

Per your request to reconsider our most recent quote, we were able to work out a figure for winter and summer that we hope you will find acceptable. We have also included an estimate for TLW staff travel expenses based on your projections.

We at TLW hope that you will consider our experience with past Philip Morris programs that comes along with our services, in addition to our hard work and dedication to the success of future programs.

Please feel free to call with any further questions.

Sincerely,

Terri L. West  
President
